

LETTER OF RECOMMENDATION!!!

Are you looking for an artificial turf company for your home or business? If so, stop what you are doing and don't contact another company! Quit wasting your time calling all of these other here today-gone tomorrow businesses and save yourself hours of phone calls and meetings. Have Green-R Turf do your job and you will be 100% satisfied.

I oversee the largest private elementary school in the Inland Empire and we needed to replace our 18,000 square foot, old, dirt, muddy, overused field. I spent the hours (and days) calling 5 different artificial turf companies from the all over creation, from Orange County to the Inland Empire. I spent so much time meeting each representative, having them come check out our field, waiting on them to get back to me with a bid, and sometimes being so frustrated at their lack of follow up.

From my first phone call I could tell this company was a cut above the rest. I met with the head of sales (Joshua) from Green-R Turf, and then the company president (Robert), and it was such a night and day difference from ALL of the other companies. They were very professional but friendly, extremely proactive but not pushy, and followed through with every email and phone call. Both of them answered every question with concrete answers and backed it all up with signed documents so that I knew it would be guaranteed.

From the first day of the project to the last day, the staff thoroughly communicated with me and walked me through every step. They worked tirelessly and with great effort, sometimes even working on the weekend to make sure the project would be done by the date they committed to. Their workmanship was top-notch and the product they used was excellent quality. Nothing they did ever raised any concerns or red-flags. Their attention to detail was superb and I truly appreciated their perfectionist attitude. The prices they charged for the product and installation were extremely fair and competitive. During the project they even added some extra base and didn't charge me for it. There were no negative surprises during the entire project and no last minute unseen charges.

Once again, if you are looking for an artificial turf company, quick looking at other companies and contact Green-R Turf. You will be an extremely happy customer and you won't be disappointed in any way. Feel free to contact me about this review if you have any questions.
